Dear Sir:

Applicant acknowledges with appreciation the Examiner's Statement of Reasons for Allowance. Applicant notes, however, that such statement of reasons for allowance appears to generally reflect the patentable elements as set forth in Claims 1, 11, and 14. Thus, the patentability of all other claims is assumed to be based upon the elements as set forth in these other claims, and that such claims meet all criteria for patentability under 35 U.S.C. §101, §102, §103 and §112.

As such, Applicant wishes to clarify that it is believed the Examiner's reasons for allowance, for all other claims not explicitly identified by the Examiner, is that the elements as set forth in such claims define an invention that is free of the prior art and that complies with all 35 U.S.C. §112 requirements.

As is clear from MPEP 1302.14:

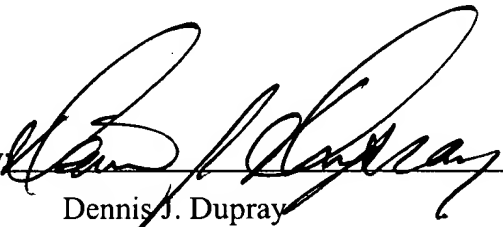

"The statement [of reasons for allowance] is not intended to necessarily state all the reasons for allowance or all the details why claims are allowed and should not be written to specifically or impliedly state that all the reasons for allowance are set forth."

Applicant submits with the filing of these Comments on Notice of Allowability, the Issue Fee Transmittal and Issue Fee in the sum of \$1,700.00.

In the event that there are any questions regarding these comments, Applicant's agent can be reached at (303) 863-9700.

Respectfully submitted,

SHERIDAN ROSS P.C.
